Boston ex-chorus girl faced in court today the husband she accuses of polygamy. He is Stanley Parker, Dartmouth graduate and ex-service man. She tells a pathetic story of life blighted by his deception.

EDNA GIBSON-PARKER

ROCKEFELLER'S GIFT TO GIRLS' COLLEGE BURNS

South Hadley, Dec. 21.—Rockefeller Hall, one of the Mt. Holyoke dormitories, was burned today. There was no loss of life nor injury. The dormitory, which was a gift to the college by John D. Rockefeller, was burned by a fire which started in the kitchen. The fire was discovered at 8:30 by Mrs. Mary Hopkins of Fort Fairfield, Me., an undergraduate, who was packing her trunk in the basement for a holiday trip home. She saw flames shooting from the kitchen. She ran upstairs and telephoned to South Hadley fire department.

South Hadley fire department responded and called help from Holyoke, four miles away. But the flames had such a start and swept up the building so rapidly that hose streams were ineffectual. The roof fell in about 11 o'clock. It was a question whether even the brick walls would stand. Rockefeller Hall was erected about twenty-five years ago, a four-story brick structure donated by John D. Rockefeller. It was used for living quarters for the college girls.

Case of the fire has yet to be determined. At the first cursory of smoke up through the hallways an alarm was raised. Girls came running down from the upper floors until all in the building were out.

TELL OF 'HIGHER UP' DRUG CASE 'GRAFT'

Portland, Me., Dec. 21.—Two doctors, testifying at the trial of Dr. Edwin C. Ruth and Ralph A. Frye, former governor of Maine, testified that they had been told of a "higher up" drug case "graft" by the government within thirty days. Colonel Henry T. Anderson of Richmond, Va., a special assistant to the Attorney-General, testified today before House Judiciary Committee.

DETECTIVE ACCUSES FLANAGAN

Declares Doctor Admitted Action Against Wife to Get Divorce

Daniel J. Haley, a Boston private detective, testified today in Suffolk Superior Court before Judge Qua that Dr. Frank J. Flanagan had admitted to him he had "framed" his wife, Mabel, in the "pajama party" which was featured in the Flanagan divorce trial in 1919.

This testimony was given at a hearing in which Mrs. Flanagan is attempting to reopen the trial which resulted in her husband's obtaining a divorce. She maintains she was "framed" and promises to produce as a witness Philip J. Crossman of Malden, who was named as correspondent in the divorce trial.

Haley testified he was employed by Dr. Flanagan to shadow Mrs. Flanagan, and made daily reports to the doctor.

FOUND NOTHING WRONG.

Haley said he was sent to the Commonwealth Hotel to "catch" Mrs. Flanagan with a man and when he reached there he found her and a man, fully attired, in a suite of rooms. He said he told Dr. Flanagan there was nothing wrong.

COP'S CASE IS TAKEN FROM JURY

Judge Dubuque Ends Cronin's Trial When Counsel Says His Client's Rights Are Denied

Attorneys and spectators stood up in excitement and court officers rapped vainly for order when the trial of Patrolman Lawrence P. Cronin in the Superior Court on indictments charging assault, embezzlement and larceny came to a sudden end today.

Judge Dubuque withdrew the case from the jury after he had been accused by Attorney Joseph O'Connell of counsel for Cronin of ignoring the constitutional rights of the defendant.

This means that the entire case will have to be retried before another jury.

The break came when Attorney O'Connell had asked Lieutenant Jeremiah J. Beardon, of Station 3, if Mr. and Mrs. Joseph Bowley, the complainants in the case, had complained to him. Assistant District Attorney Joseph Donohue objected, and was sustained.

CASE BROUGHT TO END.

"Your ruling is a violation of the constitutional rights of the defendant and of all the rights he has under the constitution to show his defense," declared Attorney O'Connell.

Judge Dubuque, leaning forward in his seat, shot back: "Mr. O'Connell, you have brought up a false issue calculated to bring about a mistrial, and I therefore withdrew the case from the jury."

Mex Pete Stock Hits 322, New Price Record

By Cosmopolitan News Service. New York, Dec. 21.—By advancing 64 points on a few transactions, Mexican Petroleum established a new high price record at \$22 today, only about 1000 shares being sold, the first at 202 and the jumps between sales averaging about seven points. The stock has a narrow market, all but about 20,000 shares having been exchanged for Pan American stock.

MAYOR IS AGAINST SHOWING

Declares It Would Hurt Movie Industry if Pictures Are Exhibited

"Fatty" Arbuckle films will not be shown in Boston. Not, at least, if Mayor Curley has anything to say about it.

Today the Mayor came out flat-footed against the showing of Arbuckle films. He said: "I believe the Arbuckle films should be barred. I regard that action proper, not only from the standpoint of public morals, but for the good of an industry which is one of the most important in America today."

ALL BAIL COMMISSIONERS TO BE FIRED

The justices of the Supreme Court have decided to clean up the bail commissioner situation in Boston. As the result of numerous complaints, to the effect that commissioners were co-operating with attorneys and bondsmen, and receiving gratuities in addition to their fees, it is announced by a committee on judges that on April 16, 1923, all bail commissioners will cease to hold office. It is understood that a select few of the commissioners who have conducted themselves properly will be reinstated later.

THOUSANDS OF FAKE RUM LABELS SEIZED

Syracuse, N. Y., Dec. 21.—Federal prohibition agents dealt a smashing blow to the fake whiskey ring here today when they raided two print shops, seizing plates and thousands of fake whiskey labels and stamps. Five men were arrested.

VESTRYMAN IS CLEARED IN STORE BREAK

North Adams, Dec. 21.—Police of Massachusetts have today from Lebanon, N. H., to arrest William H. Sperry, vestryman of the Episcopal church and chairman of the Graylock Reservation Commission, on charges of breaking and entering and larceny.

They assert that recently a store in that city was burglarized and the contents of a dressing automobile were noted. The car was later found abandoned in White River Junction and the license numbers showed it was the property of Mr. Sperry.

They brought the car here with them. They left the machine here for Mr. Sperry and departed without making an arrest. They found the machine had been stolen from Mr. Sperry last August.

OPPOSE ELECTIONS BY BAVARIANS

Munich, Bavaria, Dec. 21 (By the Associated Press).—Although the constitutional committee of the Bavarian Diet recently reported a bill for election of a State President, a last vote in the Diet has shown the Peasants' Party, Democrats and Socialists opposed to it. Consequently an election is regarded as remote. Those prominently mentioned for President are former Crown Prince Rupprecht and Dr. Von Kahr, ex-premier.

with pseudo-phenomena that deceive him.

THOUGHT ITSELF is impossible without words. Stop now and try to think, without putting the thought in words, inside your brain. You can not do it.

Emotion can pass from one brain to another, written in the face—say young people. But there is no thought without language. No transfer of thought without words, written or spoken. Divine wisdom surely would not have created this cumbersome material universe had it been possible to simplify the things by leaving spirit deal directly with spirit. Force cannot act without matter, spirit cannot act without force and matter. Write that on your tablets.

BERLIN HEARS THAT Henry Ford is backing, financially, the Bavarian anti-Semitic leader, Hitler. He is said to have unlimited cash and to display Henry Ford's portrait in his office. The Berlin Tagblatt says the American ambassador to investigate and interfere.

He need not. Ford is backing nothing in Europe, except Ford plants. But he is backing himself for President of the United States in 1924, and few realize how far that backing has been spread and organized.

Morgan & Company would have things more important than a German loan to worry about if Ford were elected, with his belief that there is a better money than gold, and that all the nation's troubles are born in Wall Street—not far from the corner of Broad and W-11, whence the Morgan office looks trustfully toward Trinity Church to the west, and busily at the United States sub-treasury just across the street.

LA FOLLETTE wants a law passed that would convict of crime anybody attempting to influence the Interstate Commission or any member of it. Innocent La Follette, you were made for this wicked world. Why do you suppose that commission was established? And what do you think lobbyists and corporation lawyers would do for a living if they were not allowed to influence—most substantially—government agencies? Under our government the plan is to put "the right people" on a commission, with plenty of power. Then let another set of "the right people" use that power for the benefit of "the right people."

Those that voted for you recently, Senator La Follette, are not included in any class of "the right people."

HARDING URGED TO SUPPRESS K. K. K. WEEKLY

Washington, Dec. 21.—President Harding today referred to the Department of Justice and the Post-office Department, a letter from Mayor Hylan of New York, requesting the government to stop publication of Colonel Mayfield's Weekly, a Ku Klux Klan paper published in Texas.

Officials said no action would be taken against the publication until investigations had been made by three departments and that the President probably would await reports from Attorney-General Daugherty and Postmaster-General Work before replying to Mayor Hylan.

According to Mayor Hylan the paper is published by Senator-elect Earl B. Mayfield, Democrat, Texas, but editors from Houston, Texas, state that the owner is Colonel Billie Mayfield and not the Senator-elect.

"There is a blatant display of race hatred and religious prejudice in this paper and considerable misstatements," the Mayor wrote the President. "As an example of the latter, Mr. Mayfield alleges in his newspaper that I have issued orders to the police to shoot Klansmen. Such an accusation is both wilfully wicked and absurd."

Mayor Hylan attacked the Ku Klux Klan and their "efforts to awaken race prejudice" and concluded:

"I respectfully urge that if an examination of a complete file of the issue of Colonel Mayfield's weekly bears out the sinister motives for which this publication is apparently disseminated, official action be taken by the Attorney-General and Postmaster-General to suppress the sheet and to proceed against its publisher, Earl B. Mayfield, the Democratic Senator-elect of the State of Texas."

YALE STUDENTS TO CHECK SALE OF HOOTCH

New Haven, Conn., Dec. 21.—Two undergraduate committees, one made up of academic students and the other representing the Sheffield Scientific School, have been chosen at Yale University to work toward cooperation in the student body to bring about a greater respect for the prohibition laws.

The appointment of the committees, it was said today, was the result of a meeting held at the request of President James K. Angell of Yale. Fifty students, representing the schools of the university, attended and heard a discussion by President Angell.

The development of student opinion against the use of intoxicating drinks was said to be the object of the meeting.

It was understood the two student committees will have authority to act in specific cases.

TO CHANGE TRAINING OF NAVAL OFFICERS

Washington, Dec. 21.—By direction of Assistant Secretary Roosevelt of the Navy Department, high officers, including Admiral Jones, commanding the new consolidated United States fleet; Rear Admiral Wilson, superintendent of the Naval Academy; Major-General Latham, commandant of the Marine Corps, and Rear Admiral Washington, chief of the Bureau of Navigation, are meeting in Washington to consider revision of the Naval War College course and a general overhauling of the instruction system for naval staff officers both afloat and ashore.

In the latter calling the meeting, Mr. Roosevelt referred to "the increasing importance of the United States' position in international world politics."

CHICAGO'S RACE RIOTS TO COST HALF-MILLION

Chicago, Dec. 21.—The 1919 race riot will cost Chicago more than \$500,000 in addition to the damage of the thousands of maintaining 4,000 men troops nine days. It was estimated today after eight days' death, slaying aggregating \$1,000,000 were approved by the city council's finance committee.

Twelve previously had paid \$25,000 a year for their deaths. Fifteen deaths remain uninsured.

Damage to property was not included in the estimated figure of \$500,000.

Figures the riot, according to an investigating commission, 44 persons were injured, 175 white men and women and seven of color were injured.

Are Corsets Coming Back? 'Why, They Never Left'

Chicago, Dec. 21.—Are corsets coming back? "They never went," members of the Chicago Corset Club, composed of traveling salesmen, declared at their annual banquet.

"Corsets are going stronger than ever," the salesmen said, "what with form fitting suits and dresses and, and—the cold weather."

CHILDREN GOING TO BETHLEHEM

Jerusalem, Dec. 21.—Christmas Day in Bethlehem will be marked this year by an annual pilgrimage of children to the Birth Church of the Nativity.

Five hundred Armenian boys and girls from the American Near East Relief orphanage in Jerusalem will march to Bethlehem with gifts made by them in their industrial school which they will place in the grotto where tradition says Christ was born. The gifts are of wood and metal.

WOMAN 'PONZI' GETS PRISON TERM IN OHIO

Pompano, O., Dec. 21.—Miss Emma Kraus, who was charged with having obtained in excess of \$200,000 from Pompano persons by questionable methods, was sentenced to from one to twenty years in the Marysville Reformatory for Women.

"It might have been worse," the sentence-dreaded sixty-year-old woman said to her husband, George Kraus, who was waiting for her in the corridor of the jail.

She was charged with embezzlement.

Mrs. Kraus is said to have obtained the reported fortune by using promissory notes to those she borrowed from. When these would come due, she would pay with more notes. Her creditors included many who gave her their life savings.

Mystery as to what has become of the money has surrounded the case from the start.

DORCHESTER POST RE-ELECTS HORNEMAN

Commander William Horneman of the Dorchester Post, Veterans of Foreign Wars, has been re-elected to that office, defeating John L. McDonald in a spirited contest. Also

elected were: George Haight, senior vice-commander; Joseph Cooper, Jr., vice-commander; James McIntee, chaplain; Peter O'Hara, officer of the day; Irving Lewis, quartermaster; Carl Weiss and Peter O'Hara, trustees.

Lewis P. Sullivan, Jr., John King, Harry McWhir, George Donnelly, Iver Johnston and Edgar Sheehan comprise the council of administration, and Lewis E. Sullivan, Jr., John Hurley, William Perry and Peter O'Hara were elected to the Suffolk County Council. Commander Horneman appointed Walter Mulhall adjutant of the post.

8 GUILTY IN PLOT TO TIE UP TRAINS

Los Angeles, Dec. 21.—Eight union trainmen leaders were convicted of conspiracy to obstruct interstate commerce for their activities in connection with a strike last August against the Santa Fe by vote-

dict of a jury in the United States District Court here. In this strike some twenty trains were abandoned in the California-Arizona desert, leaving the passengers stranded. The accusation against the men was that they plotted to bring about a stop of Alhambra, Topeka & Santa Fe trains to assist the railroad shop-

craftsmen who have been on strike since July 1 last. —The New York Times. —The New York Times. —The New York Times.

them was to go to men "higher up" at Boston, according to their testimony today.

Dr. Frederick L. Redman of Corvina, one of the physicians who the government claims, was held up, refused to say any money, he stated, when Agent Frye refused a check and asked that the payment be made in cash.

"I was told that I should have to pay quite a sum of money as the man in Boston to be fixed up were 'big fellows,'" he testified.

"I then came to the conclusion that all of them were hunch stereotypes."

Dr. Frederic W. Toner of Portland, alleged hanger for Frye and Ruff, admitted to Dr. L. H. Miller, a dentist of Portland, that the money demanded of him was "graft money for men higher up," he said.

Asked if Dr. Toner had ever before been in position to mention the payment of \$1500 alleged "hush" money, Miller said:

"I was told not to say anything at all about it. Toner told me that I was equally guilty of conspiracy with them and if I gave them away I would spend the Winter in Atlanta with them."

Dr. Redman testified that he met Inspector Frye in his room at the West End Hotel in Portland after Dr. Toner had telephoned him to come here, as it was to his advantage.

"Frye informed me," the witness said, "that I had violated the Harbors Anti-Smuggling Law in one particular and that something would have to be done."

"Nothing was said about money at that time, but later Dr. Toner told

me that it would require \$1500 or \$1600."

Dr. Redman then went on to say that Frye appeared at his office a few days later and after looking over his narcotic records, ratified them.

Frye said that he did not know whether or not he could satisfy the Boston and Washington officials but he said that he would try," said the witness.

"He said it would take some money. I asked him if I could give a check and he said that cash would be much better. I then became suspicious that everything was not all right."

HAD "APPROVED LIST."

When he asked Frye whether or not future officials would be satisfied he was told that a payment of money would put him on the approved list, and would be safe from disturbance or prosecution in the future, he declared.

Frye told him, Dr. Redman stated, that after getting on the approved list he could get all the opiates he wanted.

Under cross-examination the witness admitted that he had been a patient at Dr. Toner's sanatorium here. He stated that he was cured, adding: "I was half cured and half faked. The cures are all frauds."

Edward A. Fraser, manager of the Western Union Telegraph office, testified that on August 8, the day of one of Frye's visits to Dr. Redman in Corvina, he sent a telegram to Dr. Ruth in Boston which read:

Master A. L. Boynton, Boston. Dr. Redman, corroborated Dr. Toner relative to a letter sent Toner in which the former stated he could raise "four or five, but not fifteen."

Say He 'Beat' Hotel

HENRY WARRINGTON.

This letter was delayed, as it dropped between the mail box and the Toner house.

NOTHING LOST LETTER.

Two witnesses, employees of the postoffice, were called to show Frye's interest in this letter. Frederick H. Corbin, who was present when the missing letter was found, declared that although the message was addressed to Toner it was opened by Frye.

Previously, he declared, Agent Frye had asked him if he thought the letter contained money.

Dr. Miller, from whom Dr. Toner demanded \$200, declared that no mention was made by Frye as to money when he talked with him at his room at the West End Hotel.

On two occasions, however, he was asked to leave the room, he testified, and was kept in the corridor for ten minutes while Toner and Frye discussed his case. Later, he said, Frye told him that the money he was to pay was "higher up" at Boston.

PROMOTER HELD ON CHARGES OF HOTEL

Henry E. Warrington, who had charge of the Muscle Shoals Intelligence Bureau at the recent Atlantic City Board Walk Exposition in Mechanics Hall, was arrested in New York and brought back to Boston by Inspector Towle charged with the larceny of \$100 by means of a worthless check.

On December 9, it is alleged, he passed a check for that amount on the Parker House. He had no account at the bank on which the check was drawn, it is added.

The policy also says that an additional charge will be brought against him later, because he left the Parker House without paying his bill, which totaled \$125.

Warrington and his partner, J. M. Corbett, did a big business at the Board Walk Exposition. Their company had secured large tracts of land in Muscle Shoals, near the site of Henry Frye's proposed power plant, and thousands of dollars worth of lots were sold to Bostonians during the nine days of the exposition.

The two promoters declared that the realization of Frye's plans would quadruple the value of the land they were selling. They had an extensive chart showing proposed streets for the city that they designed was sure to be built there.

\$15,000 Loot for Bold Gang

Three daring burglaries, which police believe were committed by one gang and netted more than \$15,000 in loot, consisting of furs, silks and cloth, were revealed today.

A tunnel was chiseled through the wall to get in Graff Brothers at No. 382 Boston street, furs, jewelry, were valued at \$10,000 were taken.

Cram & Levine, second floor at No. 1041 Washington street, and the J. & T. Dress Manufacturing Company at the same address, third floor, were looted.

DEFENDS "HEALER."

Mr. Burns, a director in the Church of Divine Science, told the Boston American he is a stout friend of the doctor, and has paid no attention to the anonymous letter.

"If I thought the doctor had treated my wife and daughter wrongly, I wouldn't harbor him in my house for a minute," he declared. "The doctor is still living here, and also has his office here, so you see what I think of the charges contained in the letter."

"Others have received similar letters."

Belle Miller went to the United States secret service department when she found that his treatment of the young girl were even warmer and more frequent than any of the previous cases. As a result, Engelhardt-Wagstein-Von Hentz was a guest of the government during the war. From his prison he gave absent treatment and managed to arrange for a girl make after the war.

"I made up my mind to get revenge," Belle says. "I arranged his marriage with Minnie."

The Federal authorities in Providence say their records show every detail of the checkered past which the former chorus girl has pinned onto Engelhardt.

8,000,000 FACE RUSSIAN FAMINE

Geneva, Dec. 21.—Russia will have a shortage of at least 1,000,000 tons of cereals this winter, according to the International Committee of Russian Relief, headed by Dr. Pauline M. Hays. Reports from Russian sources declare that, as a result, food relief will be required for 8,000,000 people, while the Soviets themselves cannot support more than 2,500,000.

The importation into Russia of at least a million head of livestock, especially horses, which have decreased 50 per cent, is considered necessary to reconstitute the economy in situation of the country.

CALDER WARNS OF BRITISH SHIPS

Washington, Dec. 21.—(By International News Service.)—Prominent four times as many steel and iron merchant ships over 10,000 tons as the United States, Great Britain and Italy have a great record in maritime defense, which would place the American nation at a grave disadvantage in the event of a naval attack.

Calder of New York told the Senate this afternoon, in urging the passage of the Ship Safety Bill as a "preparatory measure of the utmost importance."

GOT DOUBLE PRICE FOR LONDON TIMES

London, Dec. 21.—The Daily Express says that Lord Northcliffe has just bought the entire interest in the Water estate in the Times for £250,000, and when he died in August his total interest in the paper represented a cash investment of \$500,000. He was said to be the present proprietor for £1,350,000, the Water estate, which in June sold for £500,000, bringing 50 shillings per share. The will of Lord Northcliffe will be formally proved tomorrow.

DECISION ON DAUGHERTY AFTER XMAS

Washington, Dec. 21.—(By International News Service.)—The House Judiciary Committee prepared today to wind up its investigation of impeachment charges brought by Representative Keller of Minnesota, against Attorney General Harry M. Daugherty.

Although the inquiry was expected to come to an end before the close of the day, a formal report on Keller's charges will not be submitted to the House until after Christmas recess.

This report probably will state that the committee has been unable to find anything in Keller's charges upon which impeachment proceedings could be instituted.

Colonel William Hayward, United States district attorney at New York, gave the committee the details of the building trades prosecution growing out of the so-called Lockwood investigation. He was to be followed on the stand by bureau chiefs of the Department of Justice who were to introduce evidence to show that the attorney-general had

Norwood Train Is Hour Late, But It Got Here!

One has to admit this for the train scheduled to leave Norwood Central at 8:11 today: It was moving the greater part of the time, when it reached the South Station an hour and ten minutes late.

But it was in low speed. Never once did the engineer shift her into second or high.

The train pulled out of Norwood Central about twenty minutes late. It proceeded with deliberation to Hyde Park, which was not on its schedule. Something had happened to the Dedham train, and so the 8:11 made the Dedham train's stops from Hyde Park in.

All the passengers were fussed up, except the card players from Wrentham, in the smoker. They played 100 hands, more or less, of bid whist.

Delays in these cases had been one of Keller's principal allegations before he withdrew from the impeachment proceedings.

POTTER SCOFFS AT MOVE TO OUST HIM

Kimer C. Potter, Massachusetts Prohibition Director, is having a good laugh today.

Dr. Potter is laughing at Harold D. Wilson, former prohibition enforcement agent for Massachusetts.

Wilson announced he is out to oust Potter and that a name might be in Trenton, New Jersey, he will outline the campaign.

Wilson charges that the enforcement of the prohibition laws in Massachusetts has broken down under Potter.

To which Mr. Potter today gave a lot of "Ha Ha's" and many more "Too Hens."

"It is one of the biggest jokes that I have ever heard," said Mr. Potter. "I laugh long and heartily."

"But what have you to say?" asked the reporter.

"Nothing, absolutely nothing," replied Mr. Potter. "You know, I make it a point never to speak of Wilson. What he has had to say in a big joke with me. I suppose that he will have to wait until January 3 to hear the big noise. Well, I suppose there will be plenty of it. But I can't help laughing."

Grandmother says:—
"We always had to use POISONOUS Antiseptics when I was a girl!"

THIS is the age of progress. In the past fifty years more has been accomplished for the comfort and welfare of the human race than in any previous thousand years of history. While there have been sensational advances in every field of human endeavor, medical science, and especially preventive medicine, heads the list.

Average of Human Life Lengthened Nine Years

Statistics prove that in the past generation the average of human life has been increased nine years. Certainly no other achievement in the realm of man's activity is comparable to this. Fifty years ago yellow fever, typhoid, diphtheria, rabies, were among the most dreaded enemies of mankind. Today anti-toxins, serums and sanitation have virtually conquered them.

Antiseptic That Revolutionized Surgical Practice

Advances in antiseptic treatment were very slow during the past twenty-five years. Science seemed unable to find anything to replace the poisonous, burning antiseptics that were so dangerous to use.

In the early days of the great war the loss of wounded from germ infections was appalling. Seven out of every ten men wounded, no matter how small the wound, were doomed to infection and perhaps death, and medical science had nothing to prevent it. Then came the discovery of an antiseptic which revolutionized surgery.

Poisonous Antiseptics Forever Banned from the Home

In Zonite, this form of antiseptic is made available for household and personal use. It seems almost incredible, but it is nevertheless true, that Zonite, according to the standard international (Rideal-Walker) method for testing antiseptics, is more than twice as powerful as carbolic acid. Think of it! A clear, odorless, harmless fluid that kills disease germs with twice the speed of pure carbolic acid. Added to this is the equally astonishing fact that Zonite, while destroying germ life lightning, actually has a healing, soothing effect on flesh and membrane.

Our grandmothers were forced to rely on deadly poisons, dangerous to have about, and almost valueless in their effect when diluted sufficiently to permit their use. This and coming generations will be more fortunate. Science has made Zonite available for every home. It is the superior to old-fashioned antiseptics as the modern express train is to the old slow-going stage coach.

Facts About Zonite

Zonite has more than twice the power of carbolic acid as germicide. It is non-toxic. It is non-irritating. It is non-staining. It is non-odorous. It is non-corrosive. It is non-flammable. It is non-poisonous. It is non-detrimental to the skin. It is non-detrimental to the eyes. It is non-detrimental to the nose. It is non-detrimental to the throat. It is non-detrimental to the lungs. U. S. BUSINESS IS RECOGNIZING LENIN'S RIGHT TO RULE RUSSIA

BOLSHEVIK SCARE IS ENDED

Big Interests Are Dealing or Ready to Deal With Russia on a Vast Scale

By WILLIAM HARD
Copyright, 1922, by Cosmopolitan News Service.
Washington, Dec. 21.—The Bolshevik scare is just about dead. American business is getting ready to recognize Nikolai Lenin as the established manager of a country in which trade is going to happen and money is going to be gained.

American business is looking the American State Department in a recognition of Russian facts. This is the conclusion of the most recent poll in American business life and particularly in the current issue of "The American News," which is the organ of the American Manufacturers' Export Association and which reaches a large number of highly favorable articles regarding the Russian situation and prospect.

Officers of the American Manufacturers' Export Association are drawn from such firms as the United States Steel Corporation, the Bethlehem Steel Company, the General Electric Company and the Standard Oil Company of New Jersey. A preview of the current issue of their magazine is accordingly revealing a great many opinions as to the possibility of an approaching change in American governmental policy toward Russia.

It appears from this magazine that the following sorts of things now exist in Russia:

In Moscow there is a private second department store which has 14,000 square feet of space on its ground floor and which has 250 departments, or sections, and which made 100 per cent on its investment in five months.

Some 100 new railroad locomotives have been imported into Russia during this year. About fifty million dollars' worth of export and import business for Russia has been done this year by Isaac J. Sherman as manager of the Russian Institution called "Arono Limited."

"Arono Limited" occupies a whole building in London called "Ravest House."

According to Mr. Mabelin, former of the New York bar, who has recently spent much time in Russia, the reliability of the books of the Soviet government can be properly represented in the following words:

"I have uniformly found in any contact with the Soviet government's foreign trade head offices that while they are shrewd and intelligent they are fair and reasonable in their efforts to arrange their deals upon an equitable basis, know-

WILL EXHIBIT PRIZE WINNING TABBIES

ing that it is worthwhile they must be to the advantage and profit of both sides.

These are a few of the astonishing statements presented this morning to the readers of the official publication of the American Manufacturers' Export Association. They are astonishing not because their truth is doubted, but because a republic of capitalists of American business men has come enough at last to print the truth about Russia.

Meanwhile, the negotiations for closer contacts between the American government and the Russian government have indefinitely, but effectively been continued. It looks today as if the wheel of the matter would be that Russian business and American business would be found locked in each other's arms and that then the two governments, not having been able to prevent it, will say: "Bees you, my children."

Doctor Identifies Burglar Suspect By Heart Beat

New York, Dec. 21.—A burglar suspect was identified by his heart throbs in the West Forty-seventh street station house.

The prisoner is Harry Sinclair, thirty years old, an actor. His description tallied with that given by Dr. Henry Mueller of a man who entered his office as a patient and beat and robbed him. Previously Dr. Mueller had examined the man for heart disease.

Dr. Mueller visited the station house with his son, Henry, also a physician.

Dr. Mueller minutely described the peculiar heart beat and murmur of the man he had examined in his office. The son examined Sinclair and told the police the heart beat was the same as described by his father. He said he recognized the peculiar murmur his father also described.

WOMAN HALTS NORTHCLIFFE WILL CASE

London, Dec. 21.—A mysterious woman appeared at the hearing of the late Viscount Northcliffe will case today and blocked immediate settlement.

The woman—whose name, according to the police, is Mrs. C. A. Thomas, arose in court and declared she desired to enter a caveat against the will in order to prior claim for certain money and property.

Mrs. Thomas then talked about her claim. She charged that former Premier Lloyd George and Northcliffe had sought to deprive her of her property.

The attorneys on both sides reached an agreement for administration of the estate, pending a final settlement.

Cheaper to Lose Cash Than Buy a New Safe

Niagara Falls, N. Y., Dec. 21.—Burglars who entered the office of Laury & Mack here received a pleasant surprise. The doors of the safe were closed, but not locked.

On the strong box was a sign: "This safe is open." The burglars took \$101.50 and an automatic pistol from the safe, and stole a typewriter.

Officers of the company said the sign was left each night so thieves would not damage the safe. They said they considered it cheaper to lose the money in the safe than to pay for repairs.

MODEL BANKER IS ACCUSED OF \$70,000 THEFT

Chicago, Dec. 21.—(By International News Service.)—Meth G. Anderson, thirty-five, a department manager for the First National Bank, under arrest, charged with having embezzled \$70,000 of the bank's funds, today declared he had not taken the money.

Anderson and his wife had lived in a modest home. Mrs. Anderson was associated and insured her husband's interest.

"I have never owned an automobile," Anderson told the police.

Bank officials say Anderson, confronted with evidence of manipulation of his books, had admitted defalcations of \$55,000.

Anderson had been considered a model employee, having been with the bank for twenty years, starting as an office boy.

VICTIMS WARNED BY "PHANTOM"

Haults Rte. Marie, Mich., Dec. 21.—A "phantom ship" bearing the outline of the tug *Hollander*, was called here today by survivors of the *Hollander* wreck last week, as a warning that the tiny vessel was soon to meet disaster.

Twice the mirage appeared. It crossed the bow of the *Hollander* just before sundown on a calm day last August. Under similar conditions it was sighted late in October.

One of the victims of last week's disaster, Captain John McPherson, saw the "ghost ship" each time and thereafter assumed, worried, friendly guise.

Others who sought for the phantom are Mrs. McPherson, wife of the *Hollander*'s harbor keeper, and Mrs. Charles Miron, wife of the *Hollander*'s survivors are recovering here from their ordeal Friday night on one of the *Hollander* Island Islands, where their craft was pointed to pieces.

The name of the man who died on board the *Hollander* was Charles Sals. 17 and hungry, he refused to heed warnings and succumbed to a diet of frozen bologna, apples and berries. The other victims, in addition to Captain McPherson, were Fred Ryan and Gus John, washed overboard with McPherson.

Many Lives in Peril in Newbury Street Fire

13 PERSONS FLEE BLAZE THAT CAUSES \$20,000 LOSS IN NEWBURY STREET SUITES

Thirteen persons were driven out, two seriously injured, by a fire that broke out in a building at the corner of Newbury street and State street today. The fire, which started in a rooming house, caused damage amounting to more than \$20,000, was caused by a two-alarm fire today at No. 20 Newbury street.

Two women were led to safety by members of the fire engine No. 1, who later used a ladder to reach the second floor, where a woman was seen to be in a room. The fire was extinguished by the fire engine No. 1, which arrived at the scene at 10:15 a. m.

MURPHY IS JUDGED IN CONTEMPT

Confessed Slayer Abusive at Hearing on Assigning New Counsel

Judge Bishop, freed from a life sentence in the Eastern Penitentiary, Pennsylvania, so he could be brought here to stand trial for the murder of Edward P. Foley in February, 1917, was adjudged guilty of contempt of court today by Judge Bishop in the Superior Court.

Murphy appeared with Attorney William T. McCarthy, who asked to be removed as counsel for Murphy. McCarthy had been appointed by the court last August.

SOMERVILLE WHARF PLAN TURNED DOWN

Mayor Webster of Somerville was informed today by his proposal to the National government to widen and deepen the Mystic River for transportation purposes, on which depended a project for the City of Somerville to build wharves, had been rejected by the army engineers who made an examination and reported to Washington. The reason for the rejection was that the engineers figured that only a few wharf owners would benefit.

STASAK, NEW MEETS MICHALOFF WATCH AT GRAND

By JACK CONWAY.

You will see a new Polish wrestling sensation at the Old Howard's show at the Grand Opera House tonight. The latest to threaten the mat prestige of the famous Zhyzko brothers is Stanislaw Stasak.

This celebrated wrestler gave a real test of his p. m. when he battled Ivan Michaloff in a flint match, best two falls out of three.

Stasak is twenty-four years old, six feet tall and weighs more than 200 pounds. He has already defeated Wladek Zhyzko, and is of the opinion he would also conquer Stanislaw. As he is still young in years, he has a wonderful future.

Will he be able to defeat Michaloff tonight? The Russian wrestler is known as the Roman Spring. He has clashed with most of our grappling stars and has the way of a champion. He is of the opinion he will easily win over the Polish star.

There will also be two other bouts—Frank Yanko, Lithuanian champion, will oppose A. Ileso, Italian champion, while Jerry J. Burns will clash with Frank Lurie.

Stasak is our selection for the feature bout.

Anderson and Norfolk Should Thrill Fans

Lee Norfolk, who battles Kid Norfolk at the Arena A. C.'s show at Mechanics Building tomorrow night, advanced the only man who to eliminate fighting B. K. single fighter, when he suggested that the winner of the tussle here oppose the Georgian warrior. Norfolk is handed a sound thumping there but not any army of admirers singing his praises.

We believe that either Norfolk or Anderson would be able to accomplish this feat.

These men, without doubt, are the world's leading light-heavyweights. We don't believe either of them would experience much trouble in winning over Harry Gribb, so-called American light-heavyweight champion. Gribb has been refused all kinds of offers to battle either Norfolk or Anderson in a decisive affair.

Harry Wills is likely to meet the winner of the Norfolk-Norfolk fight in New York. Wills has boxed over a ton and is a real contender. He would like to do a job, and he is likely to get the decision over either Norfolk or Anderson.

Anderson has been training at Punk Blanton's gym on Mass. street. Leo is in much better condition than he was when he last battled Norfolk. He has just returned from California where he engaged in six vicious battles and believes he will stop Norfolk as he did when he battled the Leo Flynn fight in Arizona.

Even though this is Christmas week, a tremendous crowd will see Anderson and Norfolk battle. This is due to the fact that these men put up a sensational quarrel when they last met here.

The semi-final of eight rounds, which will feature Pinks Martin and Young Gould, will also be a considerable interest. The winner can lay claim to the title of ring champion.

Says NIOU Flatley: McGraw Thinks Skull Meetings Enough for Ball Players; Union Would Give 'Em Too Much Strength

JOHN McGraw opposes baseball players' union in John Flatley's column. He says that if club gets any better, will sail right out of union. Giant athletes can give union cards and spades to rest of circuit, and still hang in front.

All right for baseball to be organized, but something new again for the players to get that way. Manager who has seen what managers do, probably doesn't want his athletes to follow suit.

One chap joined union and then thought manager wasn't giving him his dues. He killed himself just when runner on third base came into the play. Runner safe—but either way out-for-rest of season.

United athletes would probably demand share of gate receipts. They would have no right to it at all. They may be able to get it, but they never want it. It comes to nothing and dimmed. Would have \$10,000 a year, but either way out-for-rest of season.

United players all from National League. Run in younger circuit not in on it, many years. They have a world record in M. H. help past, though. Pitchers would vote to abolish extra inning games. Also would try to abolish umpires and have all decisions to board of arbitration.

Walking delegates would call strikes, not the ump. Would call athletes something else, call them what they demand ball players on every club. That would help game in the long run.

CHRISTMAS
Here's a merry Christmas. We hope you get the gift. Not nearly as expensive.

A SAPPY FABLE
Once there was a sport who played the market. He knew all about it. He was in on every big score for the past ten years. He was a success. He was a success. He was a success.

LITTLE SKETCHES
SHE—What did you get for the Joneses?
HE—Nothing you.
SHE—You put a gift 'em something.
HE—Surely, they always like it.

CHRISTMAS GREETINGS
GIVE the traffic cop some eggs. HE—Will bring him on the best of his eggs.

THE TRAFFIC COP
A truck block is appreciated by the crowd. She can fight the fire with it.

SEND your grocer a registered letter.
Then he'll have a special delivery.

ITS coming to reflect that after two more days, you won't even be expected to do any Christmas shopping.

THE Christmas cards make an agreeable change in the usual sort of bills, and it only costs a pair of pennies to answer them.

PROFESSIONAL wrestling Monday night will top off the season. It's the last night of the year.
